SAN FRANCISCO HISTORY ROOM

Supplemental Naturalization Data

to and including June 1, 1923

The Registrar of Voters about 1920 compiled this alphabetical index of all then registered naturalized voters.

Some of those listed may have been deceased by 1920 or they may have earlier moved from San Francisco.

This list represents those naturalized who had not been purged from the rolls as of the date of publication.

Two years later, in 1922 the Registrar of Voters decided to add a separate listing of since-registered voters who had been naturalized. This second list was printed in 1923 and shows San Francisco naturalizations after the main list, earlier naturalizations of those who had not been registered voters as of 1920, and additional voters moving into the City between 1920 and 1923.
